

- 11-gauge, low-alloy, cold-rolled, welded, steel frame is processed on a computer-controlled metal forming line for increased strength, less weight, and consistently high-quality.
- Frame is painted with three coats of enamel and clear-coated to provide a strong finish that is chip and scratch resistant.
- Head and foot sections interlock with strong, dependable jaw and rivet connections. Sections overlap 6½" at this critical stress point, for added strength.
- Extra steel plate welded to frame
- Frame has lifetime warranty. One-year warranty for electrical parts.
- Only Serenity has U.L. medical equipment listing for entire bed.

- High-quality, 1/10 hp, U.L. listed motors with modular plugs, hospital-grade, three-prong plug, and fully-enclosed metal, junction box on U.L. 544 listed electric beds, help ensure patient and caregiver safety.
- Plug-in style junction box for easy replacement of motors and pendant
- Electric beds have covers over motor actuator to protect from dust and moisture.
- Extremely-reliable, self-leveling, bed-end, lift mechanism, with high-efficiency, variable force clutch (VFC), lifts more weight easily. VFC clutch adjusts more easily when leveling without loads.
- Hole-at-center, foot and head to accommodate I.V. pole.
- Walnut, woodgrain laminate, bed-end panels are attractive and easy to service.
- Bed ends are interchangeable with those of other major brands.
- Smooth-rolling, 3" casters make bed easy to move. Two casters have top-activated brakes to lock in place.
- Hinges placed inside frame to significantly reduce chance of pinching and provide increased safety.
- 500 lb. weight capacity.
